E. A. Hayes has announced his candidacy for reelection as Congressman of the Eight district. He hasrepresented the people of this district in congress for a great many years giving satisfaction at all times. Mr. Hayes has been faithful, ever: ready to assist the people of his district. His long experience in the lower house makes him a valuable member at this time. It would be unwise at this time to change him for a new and untried man.

By a recent order of the Pacific Telephone and Telegraph Company operators are not permitted to give the time to anyone. Heretofore when a housewife wanted to set her c'ock or watch she asked for the time and the information was gladly given her. But this greedy and grasping corporation discovered that this took up some of the time of the poorly paid operators and at once put its toot down and stopped the usage. Telephones are placed in houses for just such purposes. It is just possible that the new order will compel many to take their telephones out. The company has no opposition and of course can resort to such means to harass the public. The dear people have a ray of hope, however, in that it will not be long before such corporations will be placed under governmental control. The sooner the tet-

Mr. McAdoo's generosity to the railroad employees is wide and bountiful and all-embracing-with one exception. While he provides equality of pay for white and colored firemen, trainmen and switchmen, he discriminates in that he makes the increase to the white beneficiaries to January first of this year and does not perany increased back pay. They will begin to " get theirs" from June first. This seems to us a petty discrimination which we would hardly have looked for even from a Southern-born director general of rail-

Senator Hiram W. Johnson of California is taking a lively interest in the bill pending in Congress for the rehabilitation and industrial reeducation of crippled soldiers. He is so much in favor of the idea that he believes the policy should be extended so as to include those injured in industries. Mr. Johnson states that he is ready to vote to extend the scope of the present bill so as to include that unfortunate class of our citizens, or give his support to a separate measure drawn for that special purpose. The attention that Senator Johnson and his friends are giving the matter insures legislation in the near future for the relief of industrial cripples.

## Take Care of Your Tires

America's greatest need is for shipsmore ships.

Every available vessel is being utilized in government service.

Many ships that have been carrying rubber from Sumatra and Brazil have been taken for active' transport duty. The number now left to bring rubber to this country is extremely limited.

This will necessarily force a temporary curtailment of tire production.

So, make the most of the tires you have.

Use good tires.

Take good care of them. Keep them in perfect repair. See that they are properly inflated.

Increase their mileage by careful driving. Keep out of car tracks and away from bumps. Don't scrape the curb
